Justificativa: A divisão em lotes foi adotada em função de que alguns locais não são atrativos ao mercado conforme os volumes apresentados, o que poderia gerar para esses locais uma licitação deserta.

Outro aspecto é a abrangência de alguns órgãos como INSS, FAZENDA, SAÚDE que possuem várias unidades descentralizadas e se a divisão fosse por UFs, por exemplo exigiria um esforço da administração para firmar contratos em cada UF, além do risco de não ter vencedor em alguma UF.

A divisão em oito lotes se mostrou mais equilibrada onde a quantidade de unidades com pastas funcionais foi utilizada para essa distribuição em valor aproximado a 100 unidades em cada lote.
